I am a hard working, knowledge seeking Full Stack Software Engineer who works well with others and is good at adapting to many different situations in order to achieve the goals of the team.

Skills
- HTML/CSS/JS
- React
- Web API /JSON
- Django
- Python
- MERN Stack/Express/ NodeJS
- Github
- Heroku
- MongoDB
- User Authentication

Projects
General Assembly, Remote   March, 2021 - May, 2021
Software Engineering Immersive Program
Applied my skills of adaptability/ learning, communication, computer knowledge in a 420 hour full-time course and developed a portfolio of projects:

- **Bookmarks**
    A bookmarks page by myself that allows a user to create an account, login to the account, and edit their own bookmarks using CRUD (create, read, update, destroy) functionality.

I used MERN/ Express/ NodeJS for my backend database as well as React for the frontend webpage.

- **Mercury Marathon**

    In this group project, we made a runners marathon page that allows people to register for upcoming races as well as review the results of previous races. We used Django for the database and React for the frontend. I was in charge of the previous race results page and used a Material UI called DataGrid.

- **Amiibo Searcher**

    A webpage that allows users to search through an external API of Nintendo Amiibos. I used react to create this page.

- **Thug Rumble Game Project**

    A turn based battle game created with HTML/CSS/JS. This is also my first project within the course.

Experience

Le Meridien Hotel Oak Brook, IL **|** Room Service Attendant **|** from October 2015- March 2020

Promoted from Server Assistant to Room Service Attendant due to my effectiveness in communication, time management, and the ability to learn/adapt quickly.
I delivered a great team working environment, an excellent work ethic, and a desire to help when needed which all led to me winning employee of the month on numerous occasions as well as employee of the year in 2019.

Oak Brook Hills Hilton Oak Brook, IL **|** Restaurant Server **|** from June 2016 to March 2020

Promoted from Room Service Attendant to Restaurant Server due to the skills I gained and improved upon from the Le Meridien Hotel.
I delivered my improved experiences which also led to my promotion as well as creating a great network with people from numerous industries.

Education

Highschool Diploma from Lake Park High School in Roselle IL, in 2009

Full Stack Software Engineering Certification from General Assembly Chicago, IL in 2021
